The benefits of sponsorship

International Conference on Compressors and their Systems attracts a highly engaged and influential international audience of professionals from the compressor and related markets.

The Conference is a unique platform where professionals from academia, technical and commerce backgrounds convene to discuss developments in air, gas & refrigeration compressors, vacuum pumps, expanders, related systems and components. This allows our sponsors the prospect of reaching a wider audience.

We offer different sponsorship options to align with your objectives; giving you the maximum opportunity of exposure at different parts of the Conference including technical sessions, social events and networking opportunities.

We value strong, ongoing relationships with each of our sponsors and work closely with them to ensure their individual needs are met. Respected names in compressor industry regularly support our Conference and have gained valuable exposure.

Be a part of a highly specialised conference and forum in the global compressor market.

Facts from the 14th International Conference on Compressors and their Systems:

230+ attendees

25 countries

30 parallel sessions

81 technical papers

23 student papers

3 keynotes, 2 panels
